We're Listening

Share your views & ideas with us

We want to ensure that our centre meets the needs and aspirations of the communities we serve. And we are doing this by asking three questions;

- What do you like about our centre? These are things we should continue to do.
- What do you dislike about our centre? These are things we should stop doing or change how we do them.
- What ideas do you have for our centre? These are new things we should start doing.

Take part online by visiting our website or social media or by using one of our feedback displays throughout the centre.

We're Listening is ongoing throughout February 2024.
